

Vulnerability Scan Report

Target: <https://www.bing.com/>

Scanned at (UTC): 2026-09-02T09:19:58.617324

Risk Score: 17/100 (Medium Risk)

Severity	Count
Critical	0
High	0
Medium	1
Low	3
Info	7

HTTP Security Headers

[INFO] Strict-Transport-Security present

Strict-Transport-Security: max-age=31536000; includeSubDomains; preload

Recommendation: No action needed.

[INFO] Content-Security-Policy present

Content-Security-Policy: script-src https: 'strict-dynamic' 'report-sample' 'wasm-unsafe-eval' 'nonce-T7Gb9rf62vwSg9WWL0+iI9u+BEwoi6KwUBwXDgdJ5Do='; base-uri 'self';

Recommendation: No action needed.

[INFO] X-Frame-Options present

X-Frame-Options: SAMEORIGIN

Recommendation: No action needed.

[MEDIUM] Missing X-Content-Type-Options header

X-Content-Type-Options is missing, allowing browsers to MIME-sniff responses.

Recommendation: Add 'X-Content-Type-Options: nosniff'.

[LOW] Missing Referrer-Policy header

No Referrer-Policy set; full URLs (possibly containing sensitive data) may leak to third parties.

Recommendation: Add 'Referrer-Policy: strict-origin-when-cross-origin' or stricter.

[INFO] Permissions-Policy present

Permissions-Policy: unload=()

Recommendation: No action needed.

SSL/TLS Certificate

[INFO] SSL certificate validity OK

Certificate valid for 188 more day(s).

Recommendation: No action needed.

[INFO] Modern TLS protocol in use (TLSv1.3)

Server negotiated a secure protocol version.

Recommendation: No action needed.

Security Misconfigurations

[LOW] robots.txt reveals internal paths

robots.txt lists 97 disallowed path(s), which can hint at sensitive areas.

Recommendation: Avoid relying on robots.txt to hide sensitive paths; use proper authentication instead.

Open Ports

[LOW] Port 80 (HTTP) is open

Plain HTTP port is open — ensure it only redirects to HTTPS.

Recommendation: Configure automatic HTTP -> HTTPS redirects.

[INFO] Port 443 (HTTPS) is open

Port 443 (HTTPS) is reachable.

Recommendation: Confirm this service is intended to be publicly reachable.
